

UDM
UNIQUEDESIGNMILANO

THE BRAND

U nique

Our uniqueness is shaped by a return to timeless vision, where the classic eyewear references meets the contemporary interpreted through aesthetic visual language. We focus on avant-garde essentials.

D esign

From simply, but at the same time ingenious lines, that only a city full of creative movements like Milan can inspire.

Strong, decisive lines, the exaltation of shapes with thicknesses, a fresh design to excite lovers of beauty.

M ilano

Seductive, tenacious, heterogeneous, futuristic, fast.

Milan is a hub of idea, creativity, connections.

Cradle of innovation, intertwining, stories.

Milan is poetry, and it's our place.

WHO WE ARE

UDM Unique Design Milano is a result of many conversations about fashion, design, and cultural roots.

Founded in Italy in 2018 by Stefano Romanelli and Mattia Colleoni, it is one of the most ambitious brand names of the Italian acetate eyewear, from optical to sunglasses collections. The idea was inspired by the family interior design company of one of the founders, established in the late 60's that specialized in eclectic furnishings and lighting fittings created with materials sourced overseas, combined with Italian marble, glass and textiles.

The brand reflects the DNA of the family, eternal globe trotters in love with the techniques of design and the evolution of details.

UDM's frames combine outstanding craftsmanship with advanced production methods, embracing an array of rich materials, bold geometric shapes, and an exuberance of attitude.

Eclectic and irreverent, with cutting edge frames.

MANUFACTURING

Product

Recognisable by its uncompromising approach to design, UDM combines timeless references with a contemporary aesthetic.

Between clean silhouettes and chunky frames, using plays of color, light and crystal shades, without ever overshadowing functional lightness.

Craftmanship

UDM's glasses are entirely designed in Italy, and crafted by the wise hands of skilled artisans.

The production cycle reflects the philosophy of the brand, empowering a new cultural positioning based on timeless love for design craftsmen, artisans and nature.

Acetate

Signature UDM's acetate is manufactured from natural materials and is produced in large sheets by one of the companies with the longest tradition and artisans know how, since the mid 1800s.

THE STUDIO: THE OTHER SIDE OF THE ARTIST

How can the studio reflect the personality of its master artist?

From Joan Mirò, to Lucio Fontana and
Andy Warhol.
Alberto Giacometti and Paul Klee.

This space represents the mental process
that the artist puts into practice during the
elaboration of an idea, is first and
foremost in the thoughts of the master,
who imagines his works before they take
on natural form.

And this is where we get our inspiration.
From the first form of creativity, of study
and analysis of a work that will later be
the result of the artist's genius.
Different minds, different eras, and
countries.

But one common thread,
the Art.

2021 OPTICAL COLLECTION

We combine the finest italian craftsmanship with irrefutably cool style for all of our handmade optical glasses.

Our main mission is to reach a fusion between technical innovation and manufacturing know-how.

This allow us to offer products characterized by high quality materials and the typical excellence of italian manufacturing.

This combination of innovation and tradition is the principle that inspires our company to develop new products and the perfect fit.
